

Id : fd-24

Result : False Positive

Reason :

Sink statement : Line 124 in below screenshot is the sink statement.

```
122     }
123   } else {
124     Log.e(TAG, msg: "Unhandled intent!");
125   }
126 }
```

Here the parameter TAG is as static final variable and hence will not be changed.

```
32
33   private static final String TAG =
34     AlarmNotificationActivity.class.getSimpleName();
35
```

Source Statement: Line 33 in below screenshot

```
30
31 @
32   public static Alarm get(Context context, long id) {
33     Alarm s = null;
34     final Cursor c = context.getContentResolver().query(
35       ContentUris.withAppendedId(AlarmClockProvider.ALARMS_URI, id),
36       new String[] {
37         AlarmClockProvider.AlarmEntry.TIME,
38         AlarmClockProvider.AlarmEntry.ENABLED,
39         AlarmClockProvider.AlarmEntry.NAME,
40         AlarmClockProvider.AlarmEntry.DAY_OF_WEEK,
41         AlarmClockProvider.AlarmEntry.NEXT_SNOOZE },
42       selection: null, selectionArgs: null, sortOrder: null);
43     if (c.moveToFirst())
44       s = new Alarm(c);
45     else
46       s = new Alarm();
47     c.close();
48     return s;
49   }
```
