

Id : fd-69

Result : False Positive

Sink statement : Line 246 in below screenshot is the sink statement.

```
243
244     private void dismissAll() {
245         if (activeAlarms == null) {
246             Log.w(TAG, msg: "No active alarms when dismissed");
247             return;
248         }
249     }
```

All the variables to the sink statement are constants.

```
388
389     private static final String TAG =
390         AlarmNotificationService.class.getSimpleName();
391     // ...
```

Source Statement : Line 128,130 in following screenshot

```
126
127     @
128     private Settings(Cursor c) {
129         tone_url = Uri.parse(c.getString(c.getColumnIndex(
130             AlarmClockProvider.SettingsEntry.TONE_URL));
131         tone_name = c.getString(c.getColumnIndex(
