

Id : ds-306

Result : True Positive

Reason :

Source Statement : Line 42 in screenshot below

Sink statement : Line 44 in the screenshot below

A screenshot of a code editor with a dark background. The code is as follows:

```
41      int length;  
42      while ((length = picture_input_stream.read(buffer)) >= 0)  
43      {  
44          picture_output_stream.write(buffer, offset: 0, length);  
45      }  
46      picture_output_stream.close();  
47      picture_input_stream.close();  
48
```

A yellow lightbulb icon is positioned to the left of line 42. A vertical line connects the end of line 42 to the start of line 44, indicating a data flow from the source to the sink.

The variable length flows from source at line 42 to sink at line 44.
