

Id : fd-40

Result : False Positive

Reason :

Sink statement : Line 119 in below screenshot is the sink statement.

```
117      */
118  @ public static void maybeShowDismiss(Context c) {
119      c.startService(new Intent(c, AlarmNotificationService.class)
120                      .putExtra(COMMAND, MAYBE_SHOW_DISMISS));
121  }
```

Here both the parameters COMMAND and MAYBE_SHOW_DISMISS are static final constants as shown in line 392 and line 399 in below screenshot.

```
391  // Commands
392  private static final String COMMAND = "command";
393  private static final int TRIGGER_ALARM_NOTIFICATION = 1;
394  private static final int SCHEDULE_TRIGGER = 2;
395  private static final int REMOVE_TRIGGER = 3;
396  private static final int DISMISS_ALL = 4;
397  private static final int SNOOZE_ALL = 5;
398  private static final int REFRESH = 6;
399  private static final int MAYBE_SHOW_DISMISS = 7;
400  // Notification ids
```

Source Statement: Line 54 in below screenshot

```
49
50  @ public Alarm(Cursor c) {
51      time = c.getInt(c.getColumnIndex(AlarmClockProvider.AlarmEntry.TIME));
52      enabled = c.getInt(c.getColumnIndex(
53          AlarmClockProvider.AlarmEntry.ENABLED)) != 0;
54      label = c.getString(c.getColumnIndex(AlarmClockProvider.AlarmEntry.NAME));
55      repeat = c.getInt(c.getColumnIndex(
56          AlarmClockProvider.AlarmEntry.DAY_OF_WEEK));
57      next_snooze = c.getLong(c.getColumnIndex(
58          AlarmClockProvider.AlarmEntry.NEXT_SNOOZE));
59  }
60
```
