

Id : fd-50

Result : False Positive

Sink statement : Line 111 in below screenshot is the sink statement.

```
109  */
110  @ public static void refreshNotificationBar(Context c) {
111      c.startService(new Intent(c, AlarmNotificationService.class)
112                      .putExtra(COMMAND, REFRESH));
113  }
```

Both variables to the sink statement are constant.

```
391  // Commands
392  private static final String COMMAND = "command";
393  private static final int TRIGGER_ALARM_NOTIFICATION = 1;
394  private static final int SCHEDULE_TRIGGER = 2;
395  private static final int REMOVE_TRIGGER = 3;
396  private static final int DISMISS_ALL = 4;
397  private static final int SNOOZE_ALL = 5;
398  private static final int REFRESH = 6;
399  private static final int MAYBE_SHOW_DISMISS = 7;
400  // Notification ids
```
