

**Id : ds-1519**

Result : False Positive

Reason :

Sink statement : Line 48 in the screenshot below

```
36
37  @Override
38  public void onBackPressed() {
39      if (restartTriggered) {
40          startActivity(new Intent( packageContext: this, DialerActivity.class));
41          finishAffinity();
42      } else {
43          super.onBackPressed();
44      }
45  }
46
```

The variables passed to the sink statement are instance of activity and the Class of the new activity, both generated by Android system itself and hence are not tainted.
