Id : ds-613

Result : False Positive

Reason :

Sink statement : Line 148 in the screenshot below

```
144        @Override
145        protected void onListItemClick(ListView l, View v, int position, long id) {
146            Intent data = new Intent();
147            data.putExtra(Term.EXTRA_WINDOW_ID,  value: position-1);
148            setResult(RESULT_OK, data);
149            finish();
150        }
151
```

The function gets variable position, which is the position of the item in the list view returned by android adapter, hence is not coming from the source statement.
