Id : ds-1509

Result : False Positive

Reason :

Sink statement : Line 533 in the screenshot below

```
530        case 4:
531          ClipboardManager clipboard = (ClipboardManager) getSystemService(CLIPBOARD_SERVICE);
532          ClipData clip = ClipData.newPlainText( label: "label", number);
533          clipboard.setPrimaryClip(clip);
534          break;
535        }
```

Source Statement : Line 142 in the below screenshot

```
131        @Override
132        public void bindView(View view, Context context, Cursor cursor) {
133          final LogEntryCache viewCache = (LogEntryCache) view.getTag();
134          if (viewCache == null) {
135            return;
136          }
137          String name = cursor.getString(COLUMN_NAME);
138          String phoneNumber = cursor.getString(COLUMN_NUMBER);
139          if (phoneNumber == null) {
140            phoneNumber = "";
141          }
142          String formattedNumber = PhoneNumberUtils.formatNumber(phoneNumber
143              , Locale.getDefault().getCountry());
144          if (!TextUtils.isEmpty(name)) {
145            viewCache.contactName.setText(name);
```

The source statement is an argument to the call to the android function, hence data returned is not tainted.
